

# LIQUID FISH BIOFERTILISER

Tap into the Power of Mineral Rich Protein to Boost Soil Fertility and Supercharge your Crops

Rich in 100% fish protein, **SONIC Liquid Fish Hydrolysate** is teeming with amino acids, minerals and trace elements that directly feed the soil's microbial life. By activating and supporting this vital underground ecosystem, this bio-available mineral solution enhances nutrient cycling, improves resistance to disease and environmental stresses, and ultimately delivers healthier, more vibrant crops.

## BENEFITS

- **Microbial Stimulant:** Increases fungal biomass and feeds beneficial microbes.
- **Mineraliser:** Delivers trace elements, amino acids and fish oils.
- **Soil Builder:** Boosts organic matter levels, creating well-aerated soil for healthy root growth.
- **Plant Immunity:** Strengthens crops against stresses like drought, salty soil and frost.

**SONIC Liquid Fish is made from whole fish by-products, derived from sustainably caught ocean fish.** Crafted using Cold fermentation to preserve the nutrients, proteins and amino acids, in a bio-available state. **No fillers, additives or preservatives.**

\*Low Odour Formula

COLD PROCESSED Mineral Concentrate

Activated WITH BENEFICIAL MICROBES

100% AUSTRALIAN MADE & OWNED

SONIC Natural Farming

BIOLOGICAL SOLUTIONS

SUPPLIED FRESH FOR MAXIMUM RESULTS

Beneficial for seedlings, potted plants, vegetables, orchards and cropping
